## Chart Making Report

Charts are often used to ease understanding of large quantities of data. Charts can usually be read more quickly than the raw data. They are used in a wide variety of fields. When you display information in charts it is easier to understand and interpret the data. In turn this makes the reporting process that much easier and meaningful.

The students prepared wonderful charts on the different monuments using their creativity.

Most of the students participated in this event.

The aim of this activity was to develop creativity among the students. The topics were given two

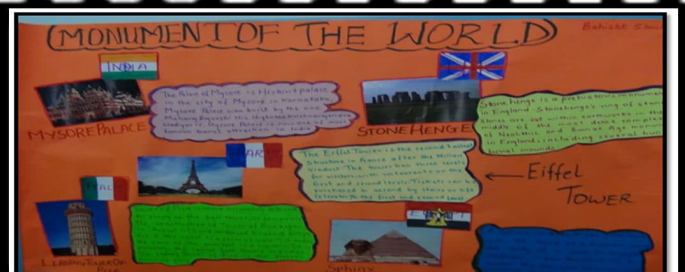

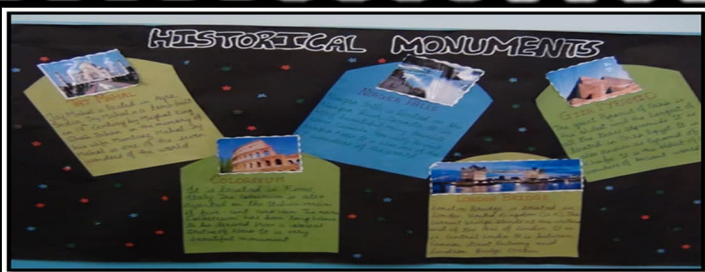

weeks before so that the students had enough time to prepare themselves.

The charts were made on the different monuments of the countries—UK, India, Egypt, Italy. The students explained their charts in a few lines.

Some of the charts were attractive and the way they were giving speech was really amazing and clearly reflected how confident they were.

Various new styles were incorporated in its design using crafty methods. Some charts were so mesmerizing that they easily caught our attention during display. Participants were judged on different measures like presentation skills, topic clarity, neatness and speech.

The students actively participated in this activity enthusiastically, making it a great success!

## Essay Writing Report

An essay is a short piece of nonfiction writing. An essay's primary goal may be to examine, speculate, analyze or interpret. Essay writing helps in stimulating the intelligence and leads to intellectual development. It is a good exercise to practice for examination and for career opportunities where writing skills matter a lot. Writing skills are important in all fields and therefore writing essays helps in quality writing. Thus keeping these points in mind an activity was conducted on essay writing. The topic was MARVELS OF ARCHITECTURE. The students had to write the similarities and differences between the monuments of India, the UK, Italy and Egypt. The students were asked to jot down the precautions taken by the government of each country to preserve these monuments.

A monument is a type of structure that was explicitly created to commemorate a person or event, which has become important to a social group as a part of their remembrance of historic times or as an example of cultural architecture. The students wrote about similarities and differences, creation and functions, protection and preservation about the monuments of the countries- India, UK, Egypt, Italy. Even though the exams were near, students participated happily putting in all their efforts. They wrote wonderful essays. Every participant had their own point of view. They all had gathered different views on similarities and differences and some interesting facts. Through this activity, not only did the students gain knowledge about the monuments of the world but the teachers also got to learn many new things through the essays prepared by the children. Our Headmistress, Ms Fauzia Ansari was very happy seeing the students work so hard and perform so well. She appreciated them and the programme ended with the distribution of certificates to the participants

## Feedback Received From Partner

### 1. Questionnaire

A questionnaire was prepared by the students related to the monuments of India, UK, Egypt, Italy, the same was exchanged with Quilters Junior, our Partner School from the UK.

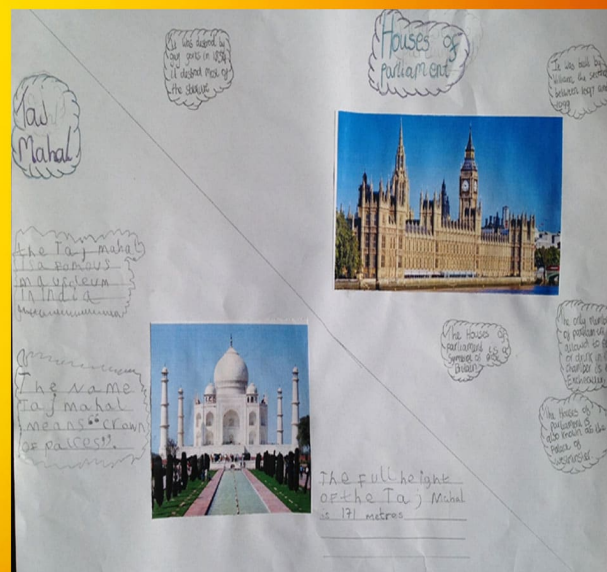

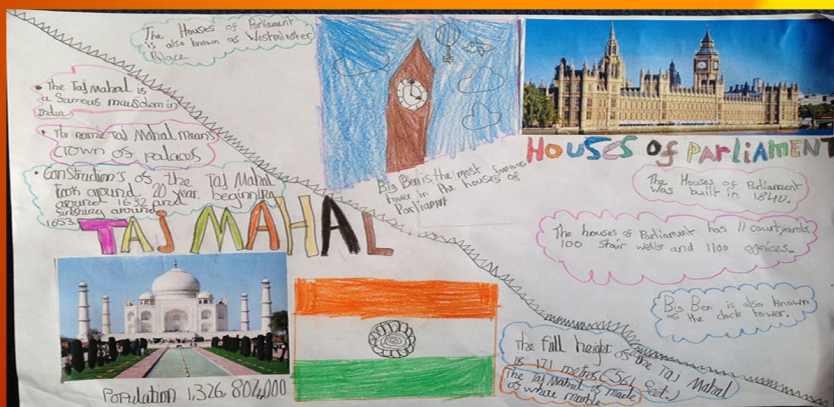

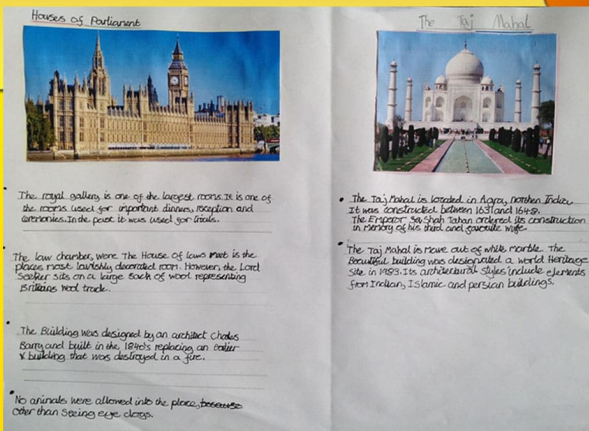

A video recording was also done that clearly reflected the students views on the similarities and the differences in the monuments of the countries under study and the same of exchanged with the students of the Partner School.

### 2. Sharing Videos

The students shared their views on the various activities they performed on the Marvels Of Architecture

The students loved performing it as it was altogether a different experience for them as they got to learn about various monuments of INDIA, UK, ITALY, EGYPT of which they were totally unaware. The most interesting part for them was the powerpoint presentations where they worked in groups helping each other to make their PPTs more presentable and attractive.

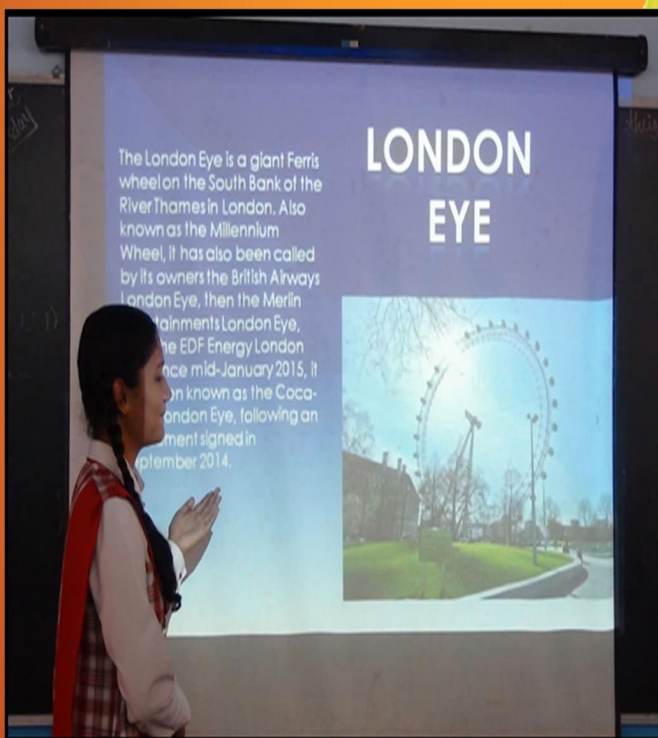

# Newsletter Marvels Of Architecture PPT Report

No matter what the topic, a PowerPoint presentation can help one communicate an idea to the audience at large in a very effective way. PowerPoint is a powerful presentation software that has changed the way people present ideas and information to an audience. ... If time, quality or convenience is a factor, PowerPoint has definite advantages over traditional visual aids. Thus keeping this in mind, an activity was conducted for the students of Std VIII wherein the students prepared powerpoint presentations on various monuments of INDIA, the UK, EGYPT, ITALY.

Attractive presentations were prepared by the students which helped them to enhance their knowledge about the various monuments of which they were totally unaware. They gathered a lot of information about each monument and were enthusiastic to know more about it in depth.

They all worked together as a team and helped each other thus developing in them the qualities of pairing, sharing and leadership. They were even eager to know the historical background of other monuments and enjoyed exploring the same with their other team members. The students were curious to showcase the presentations prepared by them in front of the other classmates thus developing in them confidence.
